

Industry Update 2018

Having been market leaders for the past 30 years, we endeavour to ensure that we provide a barometer for the market of talent attraction, retention, and development. We find that when our clients have the right information, they make better decisions with better outcomes. As Consultants in Recruitment, we have access to the key information that enables you to create the perfect recruitment and retention and development strategy. After all, a business is its people, and here at The Maine Group, we ensure the right people are in your world.

We have taken 12 months of real time data and included some facts and figures for you below to use for your business budgeting and benchmarking needs.

The Move to Contracting

44% of contracts were for 6 months or more!

London's Permanent salary inflation is weakest in UK regions

40% of employers are expecting a shortage of appropriate candidates for temporary roles.

The Rise of Temp to Perms

21% of employers take at least half of temporary workers on as permanent members of staff, yearly.

15% of the workforce are now choosing to act as freelancers, independent professionals or contractors.

The Importance of Contractors

The number of flexible workers available has dropped at the fastest rate in two years

The Brexit Impact

Net migration to the U.K. dropped by a record 106,000 in the year following the Brexit referendum.
